a. hold up  
b. hold on  
c. hold in  
d. hold
6. Mozart..... more than 600 pieces of music  
a. writes  
b. wrote  
c. written  
d. was wrote
7. We sold those old computers \_\_\_\_\_ a loss  
a. at  
b. in  
c. to  
d. for
8. If 10 % of 120 is x and y % of 80 is 8, then the value of x + y is:  
a. 22  
b. 20  
c. 12  
d. 2
9. The sum of a number and its additive inverse is m and the product of a number and its multiplicative inverse is n. The value of  $m \times n$  is:  
a. -1  
b. 0  
c. 1  
d. 2
10. For any two non-zero rational numbers x and y,  $x^{2n} \div y^{2n}$  is equal to :  
a.  $(x - y)^0$   
b.  $(x \div y)^2$   
c.  $(x \div y)^{2n}$   
d.  $(x - y)^{2n}$

11. The least square number which is exactly divisible by 3, 4, 5, 6 and 8 is :  
 a. 120                      b. 180                      c. 1800                      d. 3600
12. Solve  $(x - 2)(x - 3)$   
 a.  $X^2 - 4x + 6$               b.  $X^2 + 5x - 6$               c.  $X^2 - 5x + 6$               d.  $X^2 - 6x + 8$
13. Area of rhombus with diagonals 12 and 6.4 is  
 a. 36.4                      b. 37.4                      c. 38.4                      d. 40.8
14. What should be added to  $-7/3$  to get  $3/7$ ?  
 a.  $21/58$                       b.  $58/21$                       c.  $47/21$                       d.  $50/21$
15. What do we call a quadrilateral having only pair of opposite sides are parallel?  
 a. Square                      b. Rectangle                      c. Trapezium                      d. None of these
16. Which of the following is the cube root of  $-64/243$   
 a.  $7/4$                       b.  $-4/7$                       c.  $4/7$                       d.  $-7/4$
17. Which change does not happen in humans at adolescence?  
 a. skin is turned oily                      b. Gametes starts forming.  
 c. change in body shape                      d. chromosome number is doubled.
18. A number of forces are acting on an object as shown below. What will be the net force acting on it?

19. In the presence of water, ignition temperature of paper -  
 a. decreases              b. increases              c. remain constant              d. None of these
20. An object is vibrating at 50 hertz. What is its time period?  
 a. 0.02 s                      b. 2 s                      c. 0.2 s                      d. 20.0 s
21. Why do car racers use slick tyres in dry weather conditions?  
 a. to increase fuel efficiency                      b. to improve the visual appearance of the car  
 c. to reduce the weight of the tyres.                      d. to maximize traction and minimize friction.

$-7 \times 7 - 3 \times 3 = 3 \times 7 - 7 \times 3$

$-49 - 9 = -21 - 21$

$58 - 7 \times 3$

4  
2-8  
6-8

30. What do you call a business enterprise that makes profit primarily through trade, buying goods cheap and selling them at higher process?  
 a. Exchange      b. Noncommercial      c. Mercantile      d. Barter
31. Which country didn't allow non-Muslims to build their worship places?  
 a. India      b. Saudi Arabia      c. Pakistan      d. None of these
32. What is Zero Hour?  
 a. Begins at 2 o'clock      b. Begins at 12 o'clock  
 c. Begins at 0 o'clock      d. None of these
33. The parliament of India has how many houses?  
 a. 2      b. 6      c. 7      d. 3
34. The removal of persons from land or homes that they are currently living in, is called  
 a. violation      b. eviction      c. separation of power      d. judiciary
35. The first communication satellite of India was  
 a. Aryabhata      b. Apple      c. Rohini      d. Sputnik I
36. Island of Pearls is  
 a. England      b. Cuba      c. Thailand      d. Bahrain
37. Light Year is the unit of  
 a. Time      b. Velocity      c. Astronomical distance      d. Light
38. Jananpith award is for  
 a. Acting      b. Music      c. Literary work      d. Games
39. Which type of rocket is used in Chandrayaan - 3  
 a. LVM4 Rocket      b. LVM3 Rocket      c. PSLV Rocket      d. None of these
40. There are six persons A, B, C, D, E and F. C is the sister of F. B is the brother of E's husband. D is the father of A and grandfather of F. There are two fathers, three brothers and a mother in the group. Who is the mother?  
 a. A      b. B      c. E      d. D
41. IQ Count the minimum number of straight lines required to make the below figure.

- a. 19  
 b. 13  
 c. 17  
 d. 15

42. Punit started walking towards west from point P and after walking 6 metres, he reached point Q from where he turned left and walked 2 metres ahead to reach point A. What is the shortest distance between point R and S if it is given that point R is 4 metres to the north of point Q  
 a. 3 meters      b. 5 meters      c. 6 meters      d. 4 meters
43. In a queue, Sohan's number is 18<sup>th</sup> from the right side and 34<sup>th</sup> from the left side. How many children are there in queue?  
 a. 53      b. 51      c. 52      d. 54
44. CLOCK is 42145, LEAN is 2068, CARE is 4690, and then NECKLACE is  
 a. 80546240      b. 6054842      c. 80452640      d. 508426
45. Read the following info carefully to answer the questions that follows :  
 I. 'P + Q' means P is the father of Q      II. 'P - Q' means P is the mother of Q  
 III. 'P x Q' means P is the brother of Q      IV. 'P ÷ Q' means P is the sister of Q  
 Which of the following means 'H' is paternal grandfather of T?  
 a. H+J+T      b. T x J + H      c. H+J x T      d. H-J+T
46. Many business offices are located in buildings having 2-8 floors. If a building has more than 3 floors, it has a lift. If the above statements are true, which of the following must be true?  
 a. 2nd floors do not have lifts      b. 7th floors have lifts  
 c. Only floors above the 3rd floors have lifts      d. All floors may be reached by lifts

**In the 3 questions below, a statement is given followed by two assumptions numbered I and II. An assumption is something supposed or taken for granted. You have to consider the statement and the assumptions and decide which of the assumption(s) is/are implicit in the statement :**
